Follow these steps to complete installation and activation

1. Go to a computer with an Internet connection and visit the License Center at www.mathworks.com/licensecenter.

2. Activate to retrieve your license file and File Installation Key. You will need to provide the host ID, the release, and the operating system to activate, and possibly your Windows User Name. You may also need your license number or Activation Key. You can get these items from your license administrator.

Host ID: **DISK_SERIAL_NUM=7437abb1**
Release: **R2019a**
Windows User Name: **User**

3. Bring the license file and File Installation Key back to this computer to complete the installation and activation process.

For network licenses or for more help, see your license administrator.
