

# Ammar

Al-Salihyah / Baghdad, Baghdad, IQ 964

ajs@sc.nahrainuniv.edu.iq

Ph: 773490018

## Professional Summary

well, I am looking for the best that I can do for my self and my university and eventually my country through teaching and instruct the students to make them the best graduates and doing the best research projects as much as possible especially those of application fields.

## Skills

1. supervision of laboratory
2. research and suggestion projects
3. reading
4. teaching
5. administration

## Experience

*Instructor*

*Jun 2006 – Present*

*Al-Nahrain university/ college of sciences/ department of chemistry*

*Baghdad, Iq*

The three degrees of chemistry science (B.Sc., M.Sc., and Ph.D.) were awarded in one run starting on 1996 to 2008. Hence, I was a superior student and I spent 12 years studying and researching in different fields of chemistry to get the three mentioned degrees. During M.Sc. I spend about one year working in privet sector at one of the detergent companies after I became a member of the Iraqi chemists union. I became an employee at 2006 when I was a Ph.D student as the laboratory supervisor and started teaching and instructing at 2011. I started publishing researches at 2012 with slow motion because of the lack of the proper devices and being busy in teaching two classes of students in addition to administrative business as registration office director of the college at 2014 for two years and examination committee member at 2012 for one year. Also, I was a member of four committees : (i) The preparatory committee of the postgraduate students conference at Al-Nahrain university/college of sciences at 2015. (ii) The preparatory committee of the technology incubators workshop. (iii) Self evaluation committee of the college of sciences. (iv) Peer review plan committee. In addition to the scientific examination committees of M.Sc students.

## Education

*Ph.D.*

*Apr 2008*

*Al-Nahrain university/college of sciences/department of chemistry*

*Baghdad, iq*

*Master of Science*

*Jul 2002*
